

Northern Consulting Services

Web Design & Maintenance

Company Mission

To provide economical Internet Website Design to Individual, Business, Associations, Organizations and Clubs

Company Profile

NCS is an Internet Consulting Company founded as a result of my experiences with Individual and Business Websites. What I had noticed is that in smaller towns there is often fairly poor support for Internet access. The other problem is the high cost of Web Page Design for Individuals and Small Businesses. Many Individuals and Businesses could benefit from having a Web Exposure especially in Tourist areas but do not have the time and/or knowledge to implement their own Web Site.

This is where I come in ... For a fraction of the cost of most Web Design Services I can build you an attractive and effective Web Site that will promote your product and promote your business on the Internet.

I can also do the same for Clubs, Associations and Groups. Web Sites can be a great way to keep people informed about You, Special Events & Meetings.
